

## STUDIJŲ DALYKO APRAŠAS

Dalyko kodas	Dalyko apimtis kreditais	Institucija	Fakultetas	Katedra/Mokslo padalinys
PHD-M-015	6	ISM		Vadybos

### Pavadinimas

**TYRIMŲ PAGRINDAI**

### Pavadinimas anglų kalba

**INTRODUCTION TO SCHOLARSHIP**

Studijų būdas	Kreditų skaičius
Paskaitos	30
Konsultacijos	10
Seminarai	10
Individualus darbas	112

### Dalyko anotacija lietuvių kalba (iki 500 simbolių)

Šis dalykas skirtas ugdyti doktorantų tyrimų ir perkeliamašias kompetencijas, suteikiančias jiems galimybę tęsti akademinę karjerą universitete arba už jo ribų. Dalykas susideda iš seminarų ir akademinės praktikos.

Seminarai skirti įgūdžių ir žinių, reikalingų moksliniams tyrimams, atlikti ir taikyti. Juose gilinamasi į tyrimų etiką, akademinį rašymą ir publikavimą, mokslinių darbų pristatymą, projektų rengimą ir valdymą, taip pat specializuotų mokslinių programų įsisavinimą.

### Dalyko anotacija anglų kalba (iki 500 simbolių)

This Doctoral Course aims to develop doctoral students' teaching, research, and transferable competencies enabling them to pursue an academic career at a university or outside. The Course consists of Seminars and an Academic Internship.

The seminars are aimed to provide knowledge and skills necessary for scholarship proficiency. The seminars cover research ethics, academic writing and publishing, academic presentation, teaching, research projects' development, and management as well as specialized scholarly software mastery issues.

### Dalyko poreikis ir aktualumas

In discussions time and attention will be dedicated to the doctoral student research projects development. During the course students will work and develop their own research and at the end of the course will present the extended introduction and research plan of a doctoral dissertation.

### Dalyko tikslas

The Course aims to develop doctoral students' teaching, research, and transferable competencies enabling them to pursue an academic career at a university or outside.

The course is dedicated to increasing students' awareness of scholarly activities and developing teaching and research skills. The course is composed of two main components: Seminars and an Academic Internship.

### Dalyko turinys, temos ir studijų metodai

#### Course content:

The course is composed of Seminars and Academic Internship.

#### Seminars:

##### Proficiency in specialized scholarly software usage

Seminars on how to use specialized scholarly software. Systemizing, analyzing, managing bibliography, and citing literature with EndNote. Analyzing qualitative data and literature with MAXQDA. Using online survey software Qualtrics for data collection.

##### Proficiency in pedagogy

Seminars on how to teach. Teaching philosophy, new course development, teaching methods. Teaching for different audiences and in different environments (big classes, online, etc.). Supervision of students' work, etc.

### **Academic-publishing**

Seminars with editors of recognized journals on how to publish research papers. Journal requirements, review, and publishing process. Requirements for manuscript preparation and submission to a journal.

### **Academic presentation**

Seminars on how to present research at conferences and other events. Key elements of the academic presentation: structure, timing, preparation for questions, etc. Preparation for academic conferences.

### **Research ethics**

Seminars on research ethics. The main principles of research ethics are the appropriate use of sources and citation requirements. Plagiarism and self-plagiarism prevention. Data protection in conducting research.

### **Project management**

Seminars on project management. Research funding possibilities and sources. Projects' application development, writing, and management.

### **How to Become a World-class Researcher**

A workshop: crafting a doctoral student's researcher profile (Google Scholar, LinkedIn, ORCID, Research Gate, and others), research, and publications pipeline planning and milestones. Essential competencies for success: goal setting, collaboration, networking, and more.

### **Academic Internship**

Academic Internship may include the academic activities listed in the *ISM Faculty Workload Regulations*\* appendices.

The content (specific activities and scope) of a doctoral student's Academic Internship shall be compatible with their interests, and experience. The unit of account of Academic Internship is a conditional hour. Academic Internship is calculated by conditional hours.

## **Studijų pasiekimų vertinimas**

### **ASSESSMENT METHODS**

Seminars should be attended during the first study year. Academic Internship should be completed gradually, within the four years (full-time students) or six years (part-time students) of doctoral studies. A student's performance in this course will be evaluated qualitatively by either pass or fail. To pass the course, students are required to attend Course Seminars and complete an Academic Internship.
